At the midst of 21st century, the technological evolution is at its peak. Today the role of technical education becomes vital in enhancing the human life in general and the life of under privileged in particular keeping harmony with nature. This global expectation definitely actuates the technical education to adopt skill oriented and innovative teaching-learning process with enough scope for real time industry exposure. I am very happy to acknowledge the continuous untiring efforts of Director of Technical Education and Director of MSBTE to bring in state-of-the-art processes and outcome based curriculum designed at par with global standards which will definitely transform states technical education scenario.

At Government polytechnic Malvan, in the back drop of historical Sindhudurg fort in Arabian Sea, a team of dedicated and enthusiastic teachers and staff is striving to develop the technocrats of developed India. It gives me immense pleasure to welcome you all in the institute and extend all kind of well wishes to dear student friends & stakeholders to get your dreams come true which in turn take this institute and technical education to new heights.

Dr. Suresh A. Patil
